EXPERIENCE

Software Engineering Consulting, Freelance

6/2025 - PRESENT

- Sole maintaining engineer for two production Ruby on Rails applications
- Built structured AI workflows using Claude Code for feature planning, implementation, and code review
- Integrated Mixpanel analytics for tracking user behavior and product metrics

Sr. Instructor & Project Manager, Turing School (closed)

9/2021 - 6/2025

- Led the technical consolidation of two engineering programs (Backend and Frontend) into a single Full Stack program under a 6-week deadline while continuing to teach existing cohorts
- Designed and iterated on assessment methodology based on student outcome data to improve identification of at-risk students
- Analyzed student performance data and industry hiring trends to make curriculum decisions, balancing learning outcomes against a fixed 24-week program structure
- Maintained 90%+ student satisfaction and 75%+ program completion rates across 24 cohorts

Software Developer, Clio (acquired Lexicata in Oct 2018)

9/2017 - 5/2020

- Established project planning and implementation processes for engineering team
- Integrated with in-house and 3rd party APIs for importing/exporting legal documents and related information
- Developed reporting microservice to support more robust reporting and search features
- Managed live data migration for 2,000 accounts and over 100,000 legal cases
- Implemented and managed CI on primary app and microservices (HerokuCI)

Project Manager, August Ash

10/2013 - 5/2016

- Managed CMS and E-Commerce project life-cycle and client relationships over 10,000 project hours & 60 projects
- Wrote training documentation and led live training for clients
- Performed QA on client projects before delivery

EDUCATION

Marquette University

MBA in Business Admin, 2012

BA in Economics, 2010

Turing School of Software & Design

Backend Engineering Software Development, 2017
